

Consent for Homeopathic Treatment

Because homeopathy views health and wellbeing in a holistic manner, homeopathic consultations include a comprehensive intake that carefully evaluates symptoms on the mental, emotional, and physical levels. In addition to the presenting symptoms, clients will be asked about their temperament, personal habits, likes/dislikes and unique outlook on life. Providing this information will allow the homeopath to understand each client as an individual, and to provide the most appropriate means of care. This approach to case taking differs from most conventional approaches, which typically limit health concerns to the individual's symptoms and their treatment. Instead, homeopathic treatment seeks to strengthen and restore balance to the constitution of the whole person, and this in turn results in alleviation of symptoms.

CONFIDENTIALITY: I understand that all information disclosed is confidential and may not be revealed by the homeopath to anyone without written permission, except when disclosure is required by law. *Disclosure may be required in circumstances such as: a reasonable suspicion of child or elder abuse or a reasonable suspicion that a client presents a danger to him/herself or others.*

CONSULTATION: I authorize discussion of my case notes with other homeopaths and/or health care professionals, should assistance in remedy selection and/or case analysis be necessary (for me or my child) or if my best interest is served by such a consultation. In so doing, my right to privacy will be protected by withholding my name and all other identifying information.

CONSENT: I am over 18 years of age and have voluntarily chosen homeopathic treatment for myself and/or my child. I understand that Blackbird Homeopathy is providing a homeopathic evaluation and recommendation and that this is not equivalent to care by a medical doctor. It is, therefore, recommended that I retain the services of my primary care physician for all appropriate evaluations and check-ups for myself/my child. I further understand that Blackbird Homeopathy does not diagnose, treat, or prescribe for any particular symptoms, diseases, or conditions. I understand that they will work to increase my (or my child's) general vitality and overall constitutional strength.
